

Grade 3

Module 2

- Analog clock (a clock that is not digital)
- Capacity (the amount of liquid that a particular container can hold)
- Compose (change 10 smaller units for 1 of the next larger unit on the place value chart)
- Continuous (with reference to time as a continuous measurement)
- Endpoint (used with rounding on the number line; the numbers that mark the beginning and end of a given interval)
- Gram (g, unit of measure for weight)
- Halfway (with reference to a number line, the midpoint between two numbers, e.g., 5 is halfway between 0 and 10)
- Interval (time passed or a segment on the number line)
- Kilogram (kg, unit of measure for mass)
- Liquid volume (the space a liquid takes up)
- Liter (L, unit of measure for liquid volume)
- Milliliter (mL, unit of measure for liquid volume)
- Plot (locate and label a point on a number line)
- Point (a specific location on the number line)
-
